

UNITED STATES PATENT AND TRADEMARK OFFICE

Commissioner for Patents
United States Patent and Trademark Office
P.O. Box 1450
Alexandria, VA 22313-1450
www.uspto.gov

Date : July 22, 2005

Patent No. : 6,863,738

Inventor(s) : Kool et al.

Issued : Mar. 8, 2005

For : METHOD FOR REMOVING OXIDES AND COATINGS FROM A SUBSTRATE

Re: Request for Certificate of Correction

Consideration has been given your request for the issuance of a certificate of correction for the above-identified patent under the provisions of Rule 1.322.

Respecting the alleged error(s) in column 10 - line 23, after inspection of the patent application, it is revealed that the line is printed in accordance with the record; as you will find, with thorough research, the examiner's amendment pertains to the amendment dated 9/10/04, specifically, line 7 of claim 9 - of which, has been deleted. Claim 9 has two occurrences of the "or a polymer", on line 5 and line 7. The text on line 5 does not pertain to the text cited in the examiner's amendment. Hence, *being no fault of the Patent and Trademark Office*, no correction(s) is/are in order here under United States Codes (U.S.C.) 254 or 255 and the Code of Federal Regulation (C.F.R.) 1.322 or 1.323).

In view of the foregoing, your request is hereby denied.

Note: If you obtain data that clearly shows the attorney/applicant is not in error, simply include proving documentation and associated post card receipts, along with your certificate of correction or reconsideration via postal mail, not by fax. If you do not have supporting documentation that clearly shows the attorney/applicant is not in error and verifies that the PTO is in error regarding the matter in your request - then, the appropriate fee of \$100.00 with your Reconsideration Certificate of Correction will be necessary. Depending upon the matter of your request, in addition, a petition with it's appropriate fee of \$130.00 may be necessary, or the request may be denied; please see the MPEP for further instruction and understanding. This is a general hint, which may decrease the processing time of your request.
